Past Performance:

Electronic Content Management (FileNet)

CNA Insurance. Completed a **FileNet** migration project to coordinate, plan and execute the migration of 20+ million pages from **FileNet Image Services** platform to **FileNet P8 (Panagon) 3.5.x**. Responsibilities also included **coordinating with external IBM technicians** to setup and execute multiple IBM tools for the migration of content and its related metadata, while interfacing with existing corporate ECM architecture and **customizations**.

AON Insurance. **Upgraded and supported FileNet content management** products for the client by guiding the engineering and development teams through **multiple upgrade cycles**, identifying and **planning the infrastructure and software impacts**, and leading the team in implementing key system upgrades to improve **performance and availability** for the large user base. **Coordinated project efforts with internal and external teams and contracting firms.**

Enterprise Data Services

Illinois Department of Revenue. Provided full service consulting for the **analysis, development, testing and implementation** for a new **ERP Commercial off the Shelf Software (COTS)** used for managing the tax data for the Department of Revenue.

Enterprise Infrastructure Management

Illinois Department of Children and Family Services. Provided tier 1, 2 and 3 level **technical support, system administration and monitoring** for a variety of **Microsoft based** systems and platforms for the Department.

"Beyond Technology" Services

Department of Energy - Lawrence Berkeley Lab and Yucca Mountain. Performed **program management** for the **Nuclear Waste Department**, including the **development, verification, and application of software codes** used to model the hydrologic regime of the DOE's potential nuclear waste repository site at Yucca Mountain. Provided **nuclear technical expertise** to the Office of **Quality Assurance** in support of surveillances of the Projects' Safety Analysis Report.

Illinois Department of Revenue. Provided **technical and non-technical** training to **internal and external** users of the new **COTS** tax system. Performed training on best practices to **increase adoption** of the new system.

Company Data:
